Sub: Change in URL- Migration of Railway websites in newly created IR web portal

Ref: CRIS letter No.CRIS/PRS/WebPortal/212-G-Pt.III dt.23/08/10.

Currently the urls of websites of various Railway units are independent of each other, viz. http://www.centralrailwayonline.com/ , http://www.scrailway.gov.in/ etc.

In order to create a universal identity alongwith making for better accessibility and visibility of the websites of all Railway units it has been decided to make the URLs of the websites of all the Railway Units uniform and correlated to each other. Accordingly the website addresses of all the websites would be modified to appear as an extension of the website of Railway Board (Ministry of Railways), i.e. http://www.indianrailways.gov.in. For example the website addresses of Central Railway and Western Railway would take the form http://cr.indianrailways.gov.in, http://wr.indianrailways.gov.in etc.

This is expected to make the maintenance of the url simpler, as these will be totally maintained on CRIS servers. The continuity of url registration etc would also be handled by CRIS.

However, the content updation of the individual Railway units' website would continue to be done by the web masters of the respective Railway unit. The list of websites alongwith their old and new urls is enclosed for ready reference.

In order to give sufficient advance intimation for the revised website addresses, it is proposed to implement the above change after 75 days from the date of issue of this letter. Railways may implement the above scheme for their respective websites on the internet and stop the use of existing (older) url as per schedule. Stopping the use of existing url in a timely manner would be essential to ensure that only updated information is available to the general website user.

Railway units may also ensure that the above change is incorporated in their applicable official communication and give wide publicity to the same.

-contd-

f/c

This has the approval of the Secretary, Railway Board as well as MT/CRB.

In addition to the above, CRIS has also incorporated a feature for providing details of website hits for various Railway websites. Railway units may make the best use of this feature to assess the usage of their websites and making them better.

For any further technical clarifications, please consult the team at CRIS, New Delhi.

(Suyash Narain)
Director ME(C&IS)
