The activity of planning of feed to shops has recently been decentralised on Zonal Railways through five nodal CRSEs. Some cases have come to light where BOXN/BOSNHL wagon requiring body repairs are being sent to shops for NPOH. This practice needs to be stopped immediately and any such wagon, which have already reached shops are to be taken to the nearest wagon maintenance depot for attention.

It is also clarified that NPOH despatch to shops has been permitted specifically for those BOXNHL wagons, which have developed crack in the centre sill. Therefore, only such wagons are permitted to be sent to shops for NPIH/POH.

Necessary action may be taken as per above.
