No.2007/Tele/MWC/1

New Delhi,
Dated:24.7.07

SCR **Chief Signal & Telecom Engineer,**
All Indian Railways.

CSTE

Sub: Networking Estimate for UTS/PRS

1. Two basic principles of IP network design namely channel based and VPN based through MPLS, are being discussed between Telecom Dte and C&IS Dte. A decision on the design principle to be finally adopted for IRs will be taken shortly and same will be communicated to Zonal Railways. Further, preparation of estimate will depend on the network design principle adopted by Indian Railways. As such, sanction of an estimate will not serve any fruitful purpose if network design is based on principle other than the one on which estimate has been prepared.

2. Therefore, pending Board decision, all Railways are advised to keep the estimates on hold.
