Sub:- Competency in carrying out Signaling Modification/Alteration Works

The competency certificate to technicians is being issued by STTC of various Zonal Railways. The provision for competency in rules and technical work for SSE/JE(Signal) exist in IRSEM regarding carrying out additions and alterations to existing installations and circuits, new installations etc.

The requirement of modification or alteration activities in existing installations has become a part of routine day to day works to facilitate ongoing large number of infrastructure, reliability improvement, safety & traffic facility works involving utility shifting, phase commissioning, replacement works etc. To meet the above requirements, there is need to have more expertise of staff to deal such activities in addition to day to day maintenance works.

In view of the above more emphasis need to be given on rigorous practical training in concerned modules of curriculum, for carrying out signaling modifications/alterations. If required, special modules on this subject may be included in training curriculum.
