(Railway Board)

No.2017/Sig./1/Pt.CTT

New Delhi, 06.02.2017

Chief Signal & Telecom Engineer,
North Central Railway,
Allahabad.

Sub:- Modifications to the Point Operation and Detection Circuits.

It is understood that North Central Railway has taken up modifications to the point operation and detection circuits by making the operation and detection of each end of a cross over independent. This is reported to be done for the RVNL work of doubling between Jhansi-Kanpur.

You are directed to give your remarks on the above urgently within three days.
