GOVERNMENT OF INDIA
MINISTRY OF RAILWAYS
(RAILWAY BOARD)

No. 2007/M(L)/466/19(84) Vol.II New Delhi, dated 06.07.2012

Chief Mechanical Engineers,
All Indian Railways.

Sub: Allotment of radio frequencies for Distributed Power.

Large scale induction of DP units is expected soon on diesel locomotives all over Indian Railways. This necessarily requires licensed allocation of radio frequency from WPC. Application for such frequencies has to made by each Zonal Railway for specified sections. A list of frequencies already allotted (mostly on Western Railway) is attached.

You are requested to consult the operating department of your Railway and determine sections on which DP equipped diesel locomotive would run. A liberal plan needs to be made since even an occasional operation on a section without licensed frequency would be illegal and would invite criminal/penal action.

All Zonal Railways are advised to take urgent action in this matter since procurement and fitment of DP units on locomotives cannot be done unless a license is obtained in advance by the consignee. Necessary technical advice may be obtained from the Motive Power Directorate of RDSO.

Monthly progressed should be advised through the CMEs PCDO to the MM.
